

TEDDY BEAR HOSPITAL 2022 VIRTUAL FAMILY DAY EVENT

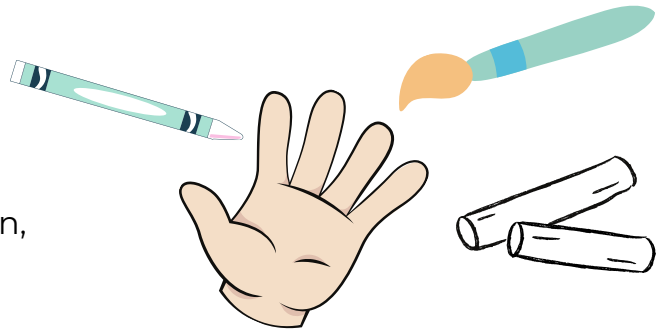

HAND X-RAY CRAFT INSTRUCTIONS

Here's what you will need:

- Black construction paper
- White chalk, crayon, pencil crayon or paint
- 10 Q-Tips
- Scissors
- Glue

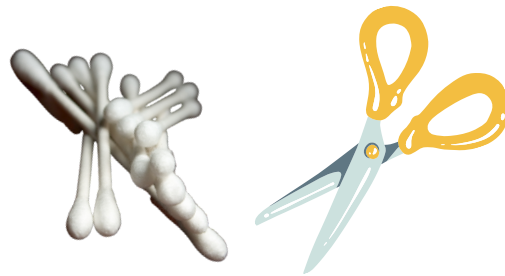

STEP 1

- Place your hand flat on the black paper with your fingers spread out wide
- Trace around the outside of your entire hand and fingers with a white piece of chalk, crayon, pencil crayon or paint

STEP 2

- Cut 5 of the Q-Tips in half
- Cut the tips off of the other 5 Q-Tips
- These will be the bones for your hand!

STEP 3

- Add some glue to the inside of your paper hand
- Use the Q-Tips to create finger bones as shown

Well done! You did an x-cellent job!
We hope these instructions came in hand-y!
